Principal's News

Many things have happened already in Term 3 with more to come. This year we were unable to invite community onto the school site to celebrate learning during Education Week, so we decided to take the classroom to you. Each class prepared a quick snapshot of their day with every child showing their favourite piece of work, both shared on their Class Dojo or Google Classroom. The teachers and children have continued to develop their technological skills and look forward to sharing more with you in the coming terms.

The projects are still underway in our playground. We had a slight delay with the COLA project due to a major water leak which has now been rectified. We hope to have the playground equipment up and running by mid-September along with painted games, circles and lines indicating safe access areas.

Recently we received the results for those students who expressed the desire to show their aspiration through the application to Selective High Schools, with 42% of students who chose to challenge themselves in this way being offered a position either at a school or on the reserve list. At Harcourt we are proud of this achievement, not only because many students have achieved their aspirational goal, but because of the way all of our students were prepared to try something new, take risks with their learning and expand and enrich their personal knowledge and skill base along the way.

High expectations and aspirations lead to strong growth and results. This is the basis to all that we proudly strive for at Harcourt.

Jan Holt – Principal

Numeracy in Kindergarten

12345
67890

- Kindergarten mathematicians have been very busy this term. We have been practising lots of skills such as counting, adding, subtracting, sharing, playing, writing numerals, measuring and hefting.

Rameen is recognising, matching and counting the total number of shapes.

Arav and Aarushi are using Mathletics on the computer.

Kevin and Reyansh are practising their numeral formations.

Krishan and Yahya are learning to represent the number 35 with groups of tens and ones.

K/1R practise counting on from the bigger number and recognising number facts to 12.

Kendrick and Rayne are playing an addition game using dice.

Esther and Jayden are learning to use an equal arm balance.

KP partners are practising their addition skills.

KP students are learning to share fairly.

in Stage One

Term 3 is up and running with the students settling into school routines. Some of the exciting things we are learning in Literacy include fairy tales and how to write a creative story of our own. In technology, students are learning how to create an algorithm to program a robot. In Mathematics, we are learning about 3D objects and their properties. We are also investigating time and the seasons. Many students have earned their silver certificate and have been Responsible, Respectful, Safe and Active learners this term. Students look forward to Monday afternoons with the wow ticket draw and virtual assembly items which will be posted onto class dojo. Students are also enjoying getting back into our library to borrow books off the Premiers Reading challenge list.

We are learning to tell the time.

In technology, we are programming BlueBots.

We are having library lessons again and need to remember to bring our library bags.

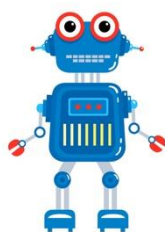

We are receiving awards in our class.

ICT in Stage 2

Dash Dash and away!

Stage Two has enjoyed ICT time with Mrs Emmans. 4L, 4H and 3S have learnt how to create algorithms to make Dash move. Not only can they make Dash move, they learnt to make algorithms to make Dash make sounds, change colour and do a combination of all those things using the iPad application.

PowerPoint Angles

In Maths, 3/4N used laptops to create presentations to showcase their understanding of 'angles around us'. In groups they presented their work and some groups even created quizzes to see if their friends were able to identify the angles.

3D Search!

3H has been searching for 3D objects and taking photos to upload it to share with their peers on Google Classroom. It is incredible how many different 3D objects we have around us when we look more closely!

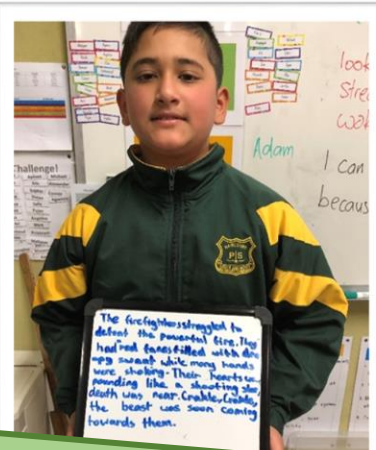

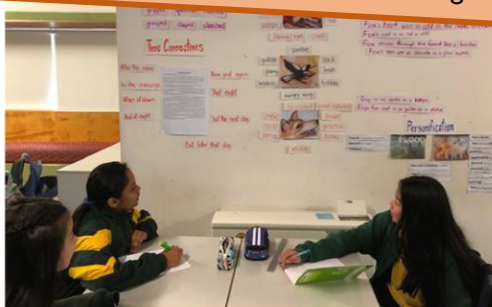

Stage 3 Learning

5/6K is learning to code robotics in the library.

5/6K is focusing on using strong language in their imaginative writing.

5/6C is learning to use the technique, 'show not tell' in their writing.

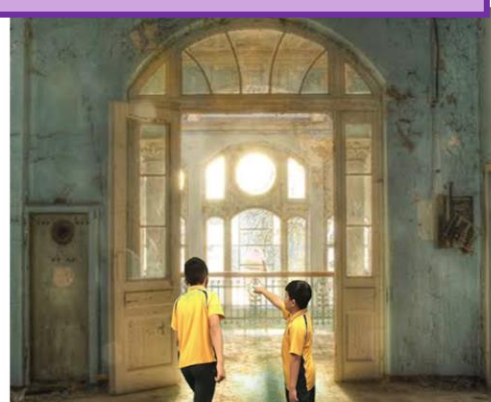

In History, 5/6C is researching information about Alfred Deakin.

5/6N are using the Green Screen to travel the world.

5/6M are exploring coding through LEGO robotics.

English as an Additional Language or Dialect

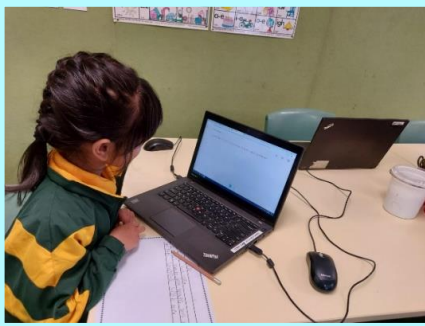

Kindergarten

Kindergarten students have been reading and reciting nursery rhymes, finger plays and number rhymes to improve their vocabulary, literacy and phonemic awareness. They are identifying rhyming words in texts and listening to a rhyme and providing the missing word. These rhymes are also being linked to writing and craft activities.

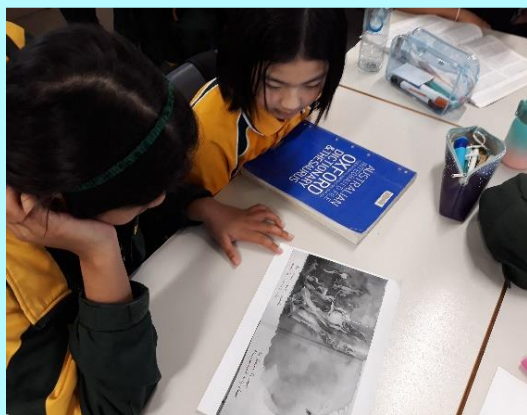

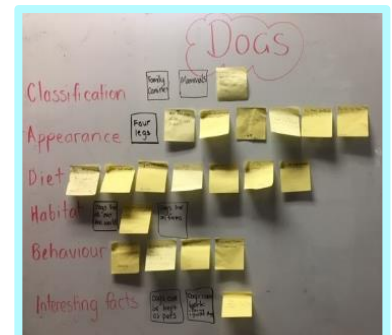

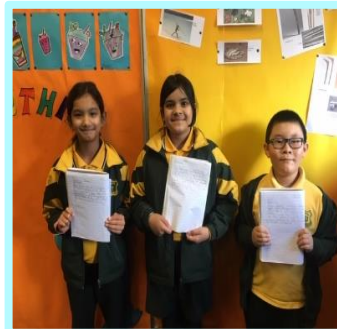

Stage 1

Stage one students have been using the Immersive Reader program to write, record and listen to their work. This program also allows New Arrival students to translate their speaking, reading and writing into their first language. This is of great benefit as it allows students to make connections between English and their first language.

Stage 2

As part of their Reading and Writing units this term, Stage 2 have been learning about informative texts. Students are learning the use of technical vocabulary and how to organise and sequence information.

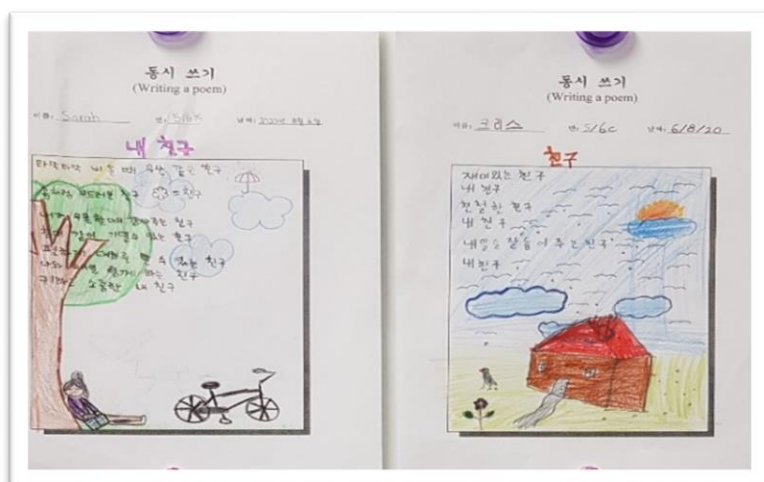

Stage 3

Stage three have been looking at language in texts and using thesauruses to help them build synonym banks of higher level "writing" words. They have been using these word banks to help move their writing from spoken text to a more formal piece of writing.

Korean Community Language

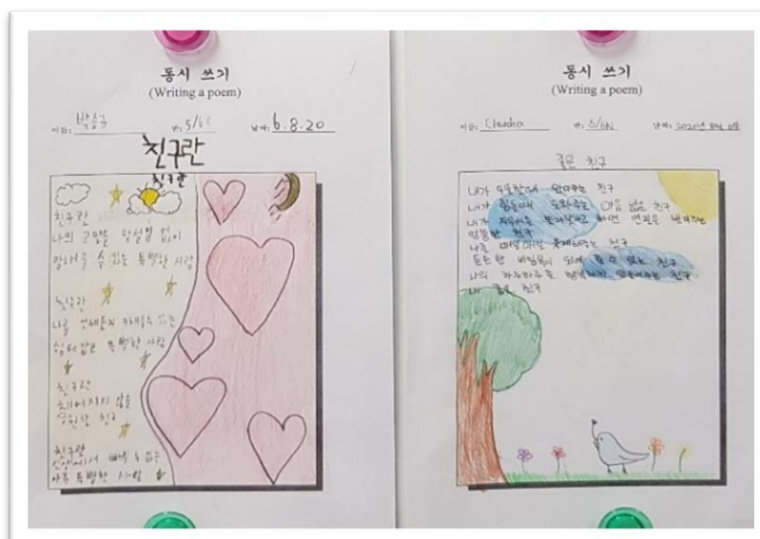

Korean students in Year 5 and Year 6 have been learning about Korean rhymes. Students wrote beautiful rhymes in Korean on 'Friends' and shared their rhyme with the class. They also learnt how to read a rhyme with proper intonations and expressions.

친구

'Chingu' means friend in Korean.

Positive Behaviour for Learning (PBL)

Term 3 started with a bang as our schoolwide competition to re-design and reboot our *Wow!* tickets took off! Students placed a vote from their favourite entries! So, we say goodbye to the old and hello to the new! Congratulations Amelia and Lyric on your designs!

WOW Tickets

Our WOW Tickets are given to students who demonstrate our school PBL values.

It's great to see you including others in your game.

K-2 WINNER

Amelia 2T

3-6 WINNER

Lyric 5/6N

NEW PRIZES are on their way! Be a **Harcourt Hero** to get your ticket! Remember, write your name and class on the back then put it in the K-2 or 3-6 letter box to be drawn each Monday!

What is the focus of each PBL lesson this term?

Week 4: Practise Covid Safe procedures in all settings.

Week 5: Be waterwise and be at the right place at the right time.

Week 6: Sit down to eat and finish before playing. Put rubbish in the bin and look after belongings.

Week 7: wear school hat when outdoors. Stay in bounds. Walk on the courtyard. Run on the grass.

Week 8: keep hands and feet to yourself. Report problems to teacher with 3 Step System

Week 9: use appropriate language, be inclusive, play fairly, share play space.

Fresh Starts Canteen Menu

Breaky and Healthy Snacks

\$1 Options:

Cereal OR Juice in a Cup
Hash Brown
Hot Chocolate

\$1.50 Options:

Homemade Fresh Muffins
Vanilla Yoghurt Cup
Watermelon OR Grapes Cup
Apple OR Seasonal Fruit

\$2 Options:

Pancakes
Fruit Salad Cup

\$3.50 Large Fruit Salad

Fresh Sandwiches and Wraps

\$1.50 Vegemite OR Jam

\$2 Cheese

\$2.50 Ham

\$3 Ham and Cheese

\$3.50 Options:

Tuna and Mayo
Salad
